

## The Leader Hospitality series

Introducing the latest addition to the Leader 1000 series: the Leader HP1 (single-line telephone) and the Leader HP2 (two-line telephone). Designed specifically to address the demands of the Hospitality industry, both models can be used as stand-alone handsets or be integrated in any size application. Highly flexible, the Leader Hospitality series is designed with the customer in mind: simple to use, yet packed with features to accommodate a variety of functions and programs. From Five-star hotels, to budget chain motels, the Leader HP1 and Leader HP2 raises the standards in hospitality.
